

Music UI JavaFX APP

Show Albums of Animals

Update name of music band with index 2 (AC/DC)

I change their name to monkeys.

```
@FXML
public void updateArtists(){
    //    final Artist artist = (Artist) artistTable.getSelectionModel().getSelectedItem();
    final Artist artist = (Artist) artistTable.getItems().get(2);

    Task<Boolean> task = new Task<Boolean>() {
        @Override
        protected Boolean call() throws Exception {
            return Datasource.getInstance().
                updateArtistName(artist.getId(), newName: "Monekys");
        }
    };
}
```

AC/DC dissapeard and monkeys appear:
